

BEAUTIFUL THINGS

For fans of Enuff Z’Nuff, Beatles & classic rock!

Donnie Vie is one of rock’s biggest secrets who has been crafting melodic power pop and rock songs for over 30 years. He and his band were instant critics’ darlings with a debut record that soared up the charts generating two long playing MTV hits, a “Top Pick” from **Rolling Stone Magazine**, and inciting numerous TV and radio performances with repeat invitations from **David Letterman** and **Howard Stern**. That band was **Enuff Z’Nuff**, led by **Grammy nominated Donnie Vie**’s songwriting sensibilities and distinctive melodic vocals, they continued on to make some truly great records. Over those years, Donnie has amassed over 25 albums’ worth of songs and decades of live shows to his name, both with and without his former band. Now a solo act, Vie continues his songwriting and performing under his own name.

Rolling Stone Magazine described Donnie’s writing skills as “Beatle-esque pop songcraft and ripping hard rock”, whereas **Billboard Magazine** says, “If there is such a thing as false advertising in rock & roll, then **Enuff Z’nuff** is one of its textbook examples. Packaged in garish peace-glam attire by their record company, the group was wrongly lumped in with the disposable pop-metal bands of the late ’80s rather than appreciated for the truly gifted power pop act that they were.”

The brand new album **Beautiful Things** is already getting the attention it deserves, “As a piece of art it’s stunning. This collection of songs is a wonderful addition to the legacy Vie has constructed over the last four decades, but not just that, these are songs we’ll remember for years to come. These are songs to keep in your heart and let out when you need to get back from the blue.” *The Rockpit*
