

GHOST SHIP OCTAVIUS

DELIRIUM

For fans of Nevermore, Kamelot, & Progressive Metal!

- * Former members from Nevermore and God Forbid.
- * The new US progressive power metal sensation!

Formed in 2012 by guitarist **Matthew Wicklund** (*God Forbid, HIMS*), drummer **Van Williams** (*Nevermore*) and vocalist/guitarist **Adōn Fanion**, **Ghost Ship Octavius** began writing what would become their critically acclaimed 2015 Self-Titled debut release. With foundations in Progressive Metal, **GSO** are forging a fresh pathway in the metal genre by exploring emotional and melodic writing firmly founded in technical playing and memorable hooks with a common theme of darkness, hope and ghostly imagery with chilling, arctic elements throughout.

Their new album "**Delirium**" sees **Ghost Ship Octavius** raising the bar in both technical ability and emotional depth and color. "From the beginning to the end you stay on the edge of your chair...A must for fans of **Queensrÿche**, **Pain Of Salvation**, **Nevermore** and **Kamelot**." -Liselotte Hegt, Aardschok 90/100 and no. 2 in the soundcheck

GSO played **Prog Power USA** and the **70,000 Tons of Metal** cruise, and was widely received with enthusiasm and praise. In 2018 Ghost Ship Octavius did a full-length US/Canada tour with bands **TYR**, **Orphaned Land**, and **Aeternam**. The tour was a huge success and brought their music to a much broader audience.

The first single and music video "Edge Of Time" will be released on the 14th of December.
