CAPRICORN

For fans of Mike Tramp, White Lion & classic rock!

Mike Tramp's debut album as a solo-artist, "Capricorn", saw the light of day 20 years ago back in 1998. Now the right time has come to make a proper re-issue of the album.

Mike Tramp says "22 years ago, I walked into a recording studio in Reno, Nevada to record my first solo album. I was both curious and nervous. Did I have style, did I have a sound. Now looking back after 10 solo albums. Capricorn is the foundation of every album I have done ever since, it is Mike Tramp, it makes me proud".

The 2018-anniversary issue of "Capricorn" will be released on November 16, 2018 on Target Records in the following formats: white ltd edition LP (500 copies only), and CD.

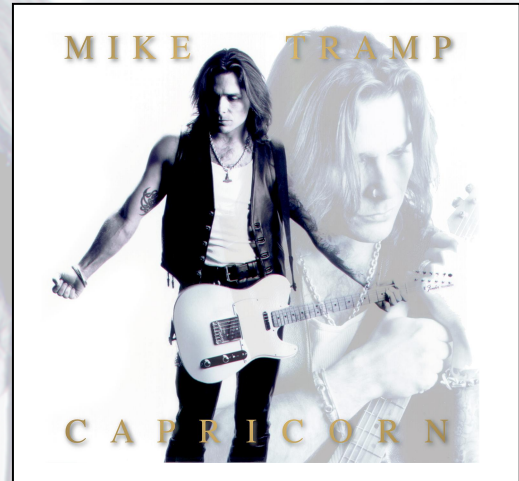

The album has been remastered at Medley Studios in Copenhagen and the artwork has been carefully restored and refreshed.

Capricorn also features former Freak of Nature guitarist Kenny Korade and bassist Jerry Best, former White Lion bassist James Lomenzo (*David Lee Roth, Megadeth, Black Label Society*) and session drummer Dorian Crozier (*Pink, My Chemical Romance, Joe Cocker*)

Mike Tramp is best known as the lead vocalist of the multi-platinum band White Lion, dominating the airwaves and touring with Aerosmith, Ozzy Osbourne, KISS and AC/DC.

In Spring of 2019 Mike Tramp will release a brand new solo album. More information to follow.
