MODERN ART

## For fans of Ted Poley, Danger Danger & classic rock!

After releasing over 20 albums, Ted Poley is a giant in the rock genre that does not need much of an introduction. He has made records both as a solo artist and with bands like Danger Danger and Tokyo Motor Fist.

Apart from the countless albums and bands he's been in, he is constantly on tour, from sharing the stage as the opening act for Alice Cooper, KISS and Extreme, to commanding the stage at prestigious festivals like Download and Sweden Rock. Making him not only an amazing singer but also one of the hardest working people in the business.

For this release, three years and a lot of writing, recording, and perfecting the 11 songs, ended up with a weeklong marathon of recording sessions in the woods of Sweden, and "Modern Art" was made.

"I am so very proud of the new album! The sound is modern with a slight prog edge to it, even sometimes bordering on pop, very melodic-with choruses that will keep you coming back again and again!" - Ted says.

"Modern Art" is being released as a ltd. SPLATTERED vinyl LP (500 copies) autographed by Ted Poley and features an exclusive remix by Neil Kernon (*Hall and Oates, Yes, Kansas, Queensryche, Dokken, etc...*), and was remastered for vinyl by Alan Douches (*Fleetwood Mac, Pete Townshend, Yes*).

The first single and music video from the upcoming album, "What Kind Of Love", is due to be released in late October.

US/European dates to be announced for 2019.
