Let us introduce you to BK Morrison.

Canadian singer BK Morrison has been a well-kept secret from the world, until he started posting some videos on YouTube of himself singing to various tracks in his living room. He then attract the attention of Swedish guitarist, songwriter and producer **Tommy Denander** (*Alice Cooper, Paul Stanley*).

The two quickly became friends and Tommy felt that this amazing voice needed to be heard, so he actually wrote an entire album of great songs.

BK flew over to Stockholm and recorded all vocals at the famous old EMI/Abbey Road Stockholm studio where Tommy works.

The album is solely written by **Tommy Denander** who played guitars, keyboards and produced it.

It features a great list of people like **Chris Ousey** (*Virginia Wolf*), **Bill Champlin** (*Chicago*) and **Joseph Williams** (*Toto*) on backing vocals, **Billy Orrico** (*Angel*) on drums and **Brian Anthony** (*Steve Walsh*) on bass.

Get ready for a new favourite singer in the style of David Coverdale, Bob Seger, Richard Marx and Lou Gramm.
